

Answer in Module 3 Task 6 Ponder Point 3:

The professor should ensure that all details of the academic task are stated, e.g. instead of just saying, “Prepare a single study topic of your choice for the next class; include authors to support the chosen theory.’ the teacher could make a list of the questions and answers:

Q1 – what? Investigate potential topics of interest that could be used for a single study. Choose one.

Q2 – who? List three academic sources that discuss the topic of your choice (books or articles).

Q3 – where? Use the university library resources to check if the sources are available on-site or online.

Q4 – when? Bring your topic and matching references for the next class.

Q5 – how? Be ready to submit your topic and references in a written/oral format prior/during the class.

Q 6 – why? The topic of your choice, after being discussed with the teacher, can be used to conduct a single study for the purpose of your MA thesis.
